## How to Print & Coloring Tips

- ◆ Print single-sided - markers and gel pens can bleed through.
- ◆ Use 'fit to page' in your printer dialog; files are 300 DPI.
- ◆ Both US Letter and A4 PDFs are included - pick your region's file.
- ◆ Prefer coloring one page at a time? Every plate is included as a PNG.
- ◆ Test your pens on the color swatch page before starting a plate.
- ◆ Cardstock (65 lb+) works best for markers and watercolor pencils.
