How to download

Use a computer, not the phone app

Large print files download most reliably from a desktop or laptop browser. The Etsy mobile app can struggle with big files.

Go to Purchases & reviews

On Etsy, open 'You' > 'Purchases & reviews', find this order, and click 'Download Files'.

Bought as a guest?

Etsy emails a download link to the address you used at checkout. Check spam if you don't see it, and use Etsy's Help article on downloads.

Unzip the folders

Each ratio arrives as a .zip - unzip it to see the JPEGs. The START-HERE guide (this PDF) downloads on its own.

How to print

At home

Use the best paper your printer takes - matte or satin photo paper, 180-230 gsm, gives the richest colour. Set your printer to 'high quality' and 'actual size' (not 'fit to page').

Local & online print shops

For larger sizes, a print shop gives the best result. FedEx Office, Staples, Office Depot, Walgreens, CVS, Costco, Walmart Photo, Shutterfly, Mpix and giclee studios all print from JPEGs - upload the size you want.

Paper & finish

Matte or satin, 180-230 gsm (or heavier for oversized). Ask for 'true size / no scaling' so your ratio stays correct.

Colour note

Screens and printers vary; colours may shift slightly from your monitor. Files are sRGB - ask your print shop to print in sRGB for the closest match.

GALLERY-WALL PLAN A - 2x3 GRID

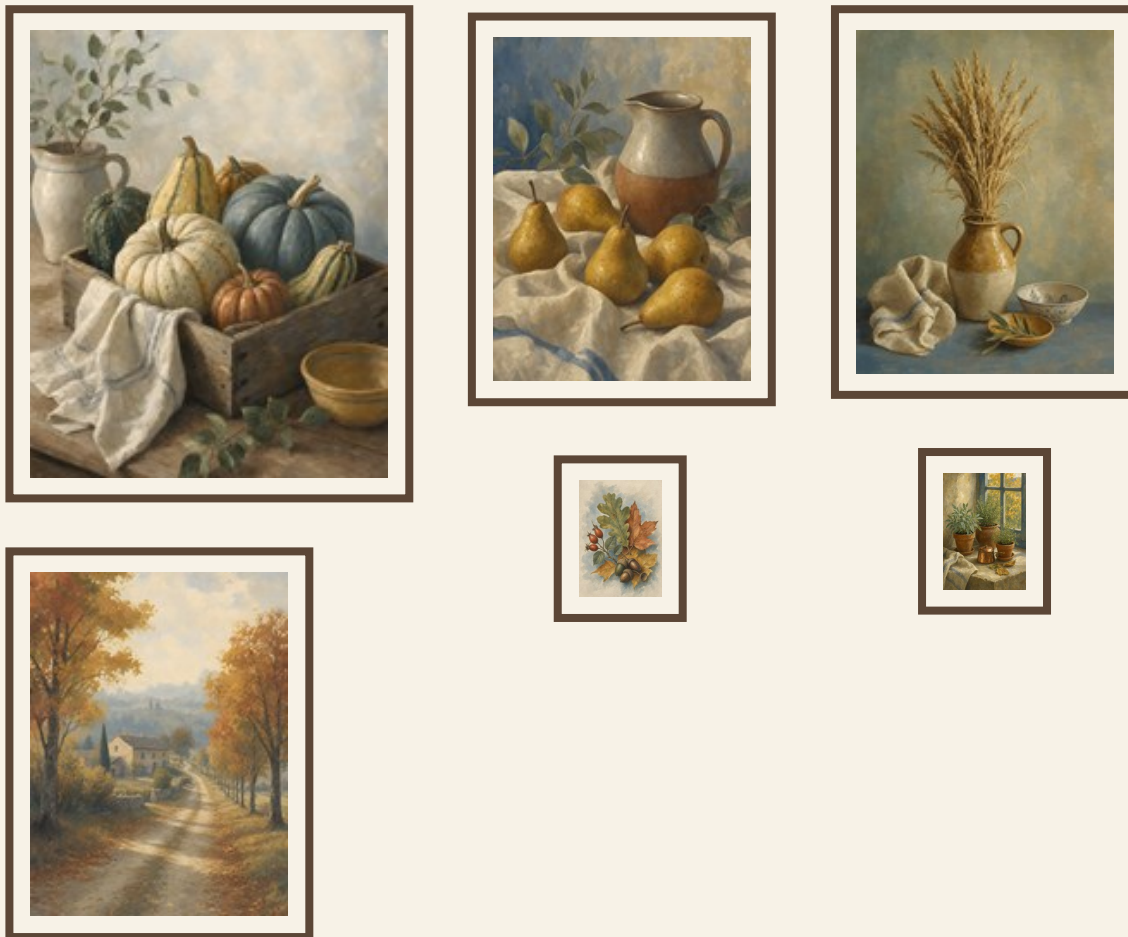

A calm, classic arrangement above a console, bed, or sofa.

- Frame size: 12x16 in (all six matched, portrait) - use the 3:4 files.
- Gap between frames: 2 in (about 5 cm), consistent horizontally and vertically.
- Total wall footprint: about 44 in wide x 38 in tall (112 x 97 cm).
- Hang the grid centre at eye level (about 57-60 in / 145-152 cm from the floor).

GALLERY - WALL PLAN B - SALON WALL

A relaxed, collected look - all six pieces, portrait, in varied sizes.

- Mix sizes: one 16x20 anchor (4:5) with 12x16 and 5x7 pieces around it, drawn to scale.
- Keep a consistent 2-2.5 in (5-6 cm) gap between neighbours; build outward.
- Start with the anchor piece slightly left of centre, then work to the right and down.
- Shown in walnut; mixing in oak or antique-gold frames also gives a collected French Country feel.

STYLING IDEAS

- Pair with linen, distressed wood, aged brass, and warm neutral walls.
- Choose frame mats in cream or warm white to echo the cream-linen anchor.
- This set loves greige, sage, and soft terracotta rooms - kitchens, entryways, bedrooms.
- Rotate seasonally: the muted autumn palette carries comfortably into winter neutrals.
