July 17, 2026

Marcus Bell, MSN, RN
Nurse Residency Program Coordinator
Riverside Regional Medical Center
3535 Olentangy River Road
Columbus, OH 43214
Dear Mr. Bell,

I am excited to apply for the Nurse Residency position on your medical-surgical and telemetry units. I completed my BSN at The Ohio State University in 2026, passed the NCLEX-RN on my first attempt, and finished 800+ supervised clinical hours — including a 180-hour cardiac-telemetry capstone where I advanced to an independent four-patient assignment. Riverside's structured residency and preceptor model is exactly the start I am seeking.

During my capstone I administered and documented 200+ medications by barcode scanning with a 100% five-rights verification rate and zero errors, and I escalated six dysrhythmia events to the rapid-response team with accurate SBAR handoffs. As a patient care technician I have already worked 8–10 patients per shift on a busy med-surg floor, so I understand the pace and teamwork a new nurse steps into — not just from clinicals, but from real hospital shifts.

I bring reliability, coachability, and a genuine commitment to patient safety. In my ICU rotation I helped lift a unit hand-hygiene audit from 82% to 95% compliance, and across every rotation my preceptors noted my patient education and calm follow-through. I am BLS/ACLS certified and Epic-trained, so I can contribute safely from day one while I grow.

Thank you for considering my application. I would welcome the chance to discuss how I can contribute to your unit and grow through your residency, and I look forward to hearing from you.

Sincerely,
Devin R. Okafor, BSN, RN
